Club code of conduct for all riders

Sunday club runs are the mainstay of club activity throughout the year. They are designed to be sociable and enjoyable, whilst providing an opportunity to develop fitness, skill and stamina.

However, everyone needs to take responsibility for the safety of others as well as for themselves. In order to ensure our runs remain safe as well as fun, we ask all our members to follow some basic rules and standards of cycling etiquette.

Below are some basic rules common to cyclists across the country as well listing as the main calls and signals to use when riding on a club run.

Please apply these rules when you are on the club runs and, where others don't, politely inform them of the etiquette we expect to see.

If you feel that any club member is consistently ignoring our rules, or you have any problems or questions with club runs, please email contact@barnsleyroadclub.co.uk

DO:

- Follow the Highway Code at all times (it applies to all road-users) as well as the instructions of the ride leader, who is responsible for navigating and deciding when to single out, etc.
- Ensure your bike is properly prepared for each ride, ie brakes are fully operational, tyres are pumped to recommended pressures, chain is oiled, etc. In winter months, this also means fitting more robust/heavier tyres to guard against punctures and full length mudguards to ensure the comfort of others, so we can continue to ride as a group.
- Dress in appropriate clothing for the weather and bring everything you might need - ie tyre levers, spare tube, pump, multi-tool, waterproof jacket, food, drink, money (cafe stops are the best bit)
- Cycle a maximum of two abreast in two close parallel lines where appropriate, focus on keeping it neat and tidy. There should be approx. half a meter between your front wheel and the back wheel of the rider in front; and also between your shoulders and the rider beside you.
- Be prepared on small or busy roads to ride in single file. This will be signalled by the ride leader when it is necessary.
- Ride directly behind the wheel in front - if you cycle in the middle of the two wheels in front of you, you WILL push the cyclist on your outside into the path of passing vehicles.
- Brake as gently and smoothly as you safely can when riding in a pack and cover your brakes at all

Guide to renewing your club membership – your details, and emergency contact information
